

KYUSHU HIGHWAY DRIVE MAP

In Japan you have to **keep to the left!**

Be careful as there is a speed limit (100km/h)!
The limit goes down to 80km/h at some sections.
Speeding is dangerous as there are many curves.

Be careful not to enter a wrong road at Tosu JCT as it is of a complicated shape of a clover-leaf.

It is 6-lane between Dazaifu IC and Kurume IC. The flow of traffic changes as the sections before and after these ICs are 4-lane. Maintain ample distance between you and the car in front of you and drive carefully.
